```

Tambahkan menu untuk mahasiswa pada app.blade.php

Tambahkan kode berikut pada MahasiswaController

```
MahasiswaController.php x

1 <?php
2
3 namespace App\Http\Controllers;
4
5 use Illuminate\Http\Request;
6 use App\Mahasiswa;</pre>
```

Buat folder mahasiswa didalam folder views, kemudian buat file index.blade.php Copy-paste kode dari index.blade.php yang ada di folder prodi, kemudian ubah beberapa bagian menjadi seperti berikut:

```
index.blade.php
 @extends('layouts.app')
  ▶ ■ factories
  ▶ migrations
                       @section('content')
  ▶ 🛅 seeds
                       <div class="container">
     <div class="row justify-content-center">
   <div class="col-md-8">
 ▶ ■ public
                                 <div class="card">

▼ i resources

                                    <div class="card-header">Mahasiswa</div>
                                     <div class="card-body">
  ⊳ 🛅 js
                                        <a href="/mahasiswa/new" class="btn btn-primary">Buat Mahasiswa Baru</a>
  ▶ 🛅 lang
  ▶ sass

                                            @endforeach
 ▶ | vendor
 □ .editorconfig
```

Lakukan migrasi dengan mengetikkan command berikut:

```
alexwawo@alexwawo: ~/Code

File Edit View Search Terminal Help

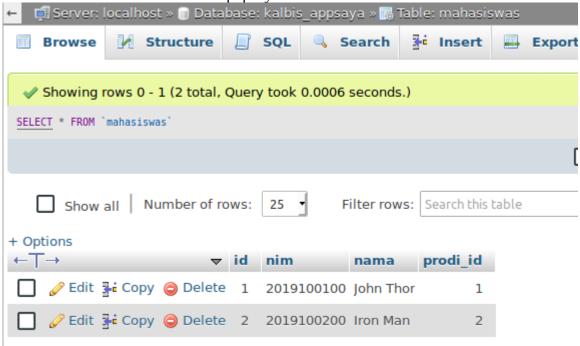

alexwawo@alexwawo:~/Code/appSaya$ php artisan migrate

Migrating: 2019_03_16_041535_create_mahasiswas_table

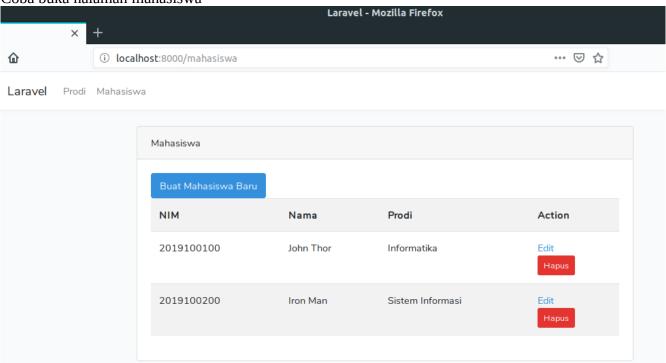

Migrated: 2019_03_16_041535_create_mahasiswas_table

alexwawo@alexwawo:~/Code/appSaya$
```

Coba tambahkan data mahasiswa melalui phpMyAdmin

Coba buka halaman mahasiswa

Tambahkan kode berikut pada MahasiswaController bagian create()

Buatlah file create.blade.php di dalam folder mahasiswa, kemudian tambahkan kode berikut

```
create.blade.php
  ▶ 🛅 js
                                       @extends('layouts.app')
 ▶ 🛅 lang
  ▶ Sass
                                      @section('content')

▼ iews

                                       <div class="container">
                                           <div class="row justify-content-center">
     <div class="col-md-8">
   ▶ ■ auth
   ▶ ■ layouts
                                                          <div class="card-header">Buat Mahasiswa Baru</div>
<div class="card-body">
